Career Objective

A highly motivated and detail-oriented technology professional aspires to build a robust career in Computer Networking and IT Security. Seeking to leverage strong foundational knowledge in network architecture, protocols, and cloud security principles to contribute effectively to an organization's infrastructure development. Dedicated to maintaining high network availability, implementing stringent security protocols, and optimizing system performance. Aiming to grow into a senior network infrastructure specialist, driving digital transformation while continuously adapting to emerging technologies and industry best practices.

Educational Background

BSc (Hons) Computer Networking & IT Security

2024 - Present

Islington College

London Metropolitan University

Kamal Marg, Kamalpokhari, Kathmandu, Nepal

SLC (School Leaving Certificate)

2023 - 2024

Global College of Management

National Examinations Board (NEB)

Mid-Baneshwor, Kathmandu, Nepal

Work Experience

Web Developer | Craft And Cottons

March 2026 - Present

- Developing and maintaining a responsive commercial e-commerce website using HTML, CSS, and JavaScript.
- Improving online brand presence, user experience, and digital customer engagement through modern front-end technologies.

Customer Success Representative (CSR) | ING Skill

April 2025 - August 2025

- Addressed customer concerns professionally and advertised the organization's training solutions and programs through telephonic communication.
- Enhanced client relationships and customer success metrics by providing clear guidance on service offerings.

- Managed daily sales records, expenditure tracking, and data collection using Microsoft Excel.
- Ensured data accuracy and integrity to assist in reporting and business operation optimizations.

Skills

Technical Skills:

- **Programming Languages:** HTML, CSS, JavaScript
- **Operating Systems:** Windows, Linux
- **Tools and Software:** Microsoft Excel, Git, GitHub, VS Code, Wazuh SIEM
- **Networking & Security Skills:** Routing & Switching, Network Protocols, IT Security Principles, SIEM Deployment, Log Analysis, Real-Time Threat Monitoring, Cloud Infrastructure Architecture

Soft Skills:

Communication, Time Management, Interpersonal Skills, Problem Solving, Decision Making, Critical Thinking, Teamwork, Photography

Academic & Personal Projects

Academic Projects:

Aeternam: E-Commerce Luxury Watch Retail Platform

HTML, CSS, JavaScript.

- Collaborated with a team of four to design and deploy a luxury watch e-commerce platform featuring interactive product galleries and integrated video content for enhanced user engagement.

Denial of Service (DoS) Attack Simulation & Mitigation Lab

Kali Linux, hping3, Nmap, Wireshark, Windows Server 2022 (IIS), Windows Defender Firewall, Registry Editor

- Conducted a controlled DoS attack simulation against a Windows Server 2022 IIS web application, demonstrating SYN Flood and SYN Flood with IP rotation attacks using hping3. Captured and analyzed attack traffic, implemented and evaluated mitigation techniques using PTES standard.

PFXC (Playfair XOR Chaining) Cipher - Custom Encryption Algorithm Design

Cryptographic design and analysis (Playfair cipher, XOR operations, bit rotation/circular shift,

- Designed and analyzed a hybrid encryption algorithm (PFXC) that extends the classical Playfair cipher by layering in XOR operations, 5-bit circular rotation, and chaining to strengthen diffusion. Developed complete encryption/decryption algorithms and flowcharts, then validated the cipher through four detailed test cases covering varying plaintext lengths, repeated characters, and odd-length padding scenarios

Personal Projects:

Craft & Cottons Commercial E-Commerce Website

HTML, CSS, JavaScript

- Developed a fully responsive e-commerce web platform for a boutique brand, focusing on clean code architecture and a seamless user experience across all devices.

Training and Certifications

- | | |
|---|-------------------|
| • <u>Introduction to Critical Infrastructure Protection (ICIP)</u>
OPSWAT Academy Certificate ID: jCHA04F8lw | June 2026 |
| • <u>AWS Academy Graduate - Cloud Architecting</u>
AWS Academy 60-Hour Comprehensive Training Program | April 2026 |
| • <u>AWS Academy Graduate - Cloud Foundations</u>
AWS Academy 20-Hour Comprehensive Training Program | April 2026 |
